

The line graph displays the annual number of deaths from 1999 to 2004. The x-axis represents the year, and the y-axis represents the number of deaths. The data shows a general upward trend with significant fluctuations. The number of deaths starts at approximately 10 in 1999, peaks at about 45 in 2000, drops to around 15 in 2001, rises to about 55 in 2002, falls to around 20 in 2003, and reaches its highest point of approximately 95 in 2004.

Year	Deaths
1999	10
2000	45
2001	15
2002	55
2003	20
2004	95
